

HACCPAC and MEALPAC Release Notes

1. HACCPAC

Note: To download and install the updates below, please run the *HACCPAC Update Wizard*.

Date	Module	Description
30/03/2012	Reports on Demand	Rectified issue whereby horizontal scroll bar did not appear when running a report that was too wide for the screen.
23/03/2012	Clients	Rectified issue that occurred when printing grouped SCTT forms – the header from the first SCTT form was being repeated on all pages.
27/02/2012	Reports on Demand	Evacuation Assistance Report enhancements – added emergency contact details and removed clients who are no longer service users.
20/01/2012	Reports	Rectified issue with the MDS - Carer DOB reported as 99/99/9999 when the field is blank which generated a critical error. The report has been updated so that the MDS shows blanks instead of 99/99/9999. Also, a warning message has been added to the Haccpac MDS error report - When carer availability is set to 'has a carer', carer DOB must not be blank.
20/01/2012	Rosters	Rectified issue in Rosters where the background in the weekly view was black on certain operating system/ hardware combinations.
18/11/2011	Notes	Rectified issue whereby the Assessment Hours pop-up allowed free text to be entered in the Worker, Service and Task dropdowns. This caused incorrect workers to be entered and added to the roster. Now the fields only allow options from the dropdown list to be selected.
28/10/2011	Install Package	The HACCPAC install package was missing one of the reference files, MSSTDFMT.DLL. This file has now been added to the install package.
24/10/2011	Daelibs, eziTracker	Microsoft has changed the XP Operating System so that ADODB connections need to be late bound, otherwise an error results. All ADODB connections are now late bound.
30/9/2011	Care Plan	Version 8.2 upgrade - Added a new fully integrated Care Plan module
30/9/2011	Notes	Version 8.2 upgrade - A new pop-up has been added to the Notes module to enable you to quickly and easily record assessment hours without having to add assessment jobs to the roster
30/9/2011	VadaPDF	Version 8.2 upgrade - The new VadaPDF tool enables you to save all reports across all modules as PDF. Currently, these reports can only be print previewed or printed.
30/9/2011	Clients	Version 8.2 upgrade - The following SCTT form fields have been increased to allow you to enter more information:

HACCPAC and MEALPAC Release Notes

		<ul style="list-style-type: none"> • Summary and Referral - Increased the size of the Description of Issues as identified by the Initial Needs Identification field. • Care Coordination Plan - Increased the size of the Agreed goal and Actions columns. • Consumer Profile: Need for Assistance - Increase the size of the Comments column.
30/9/2011	Reports	Version 8.2 upgrade - Improved error reporting on the MDS Summary Report to bring it in line with the MDS Submission Log provided by the DHS.
30/9/2011	Clients	Version 8.2 upgrade - Added the ability to automatically enter 'This information collected by' data in the SCTT form footer. Note: The HACCPAC Security Feature must be enabled to use this functionality.
30/9/2011	Clients	Version 8.2 upgrade - SCTT Form Snapshot - new feature that enables you to save SCTT forms for all clients at a particular point in time.
30/9/2011	Clients	Version 8.2 upgrade - Rectified issue whereby the Clients module displayed on the Windows task bar disappears.
30/9/2011	Clients	Version 8.2 upgrade - Increased the size of the Comments field in the Reviews tab and the Recipients Due for Review report.
30/9/2011	Clients	Version 8.2 upgrade - Accommodation dropdown (Cons. Profile > Living Arr.) is not wide enough - this enhancement adds a tooltip so that when you mouse over the dropdown, the tooltip displays the full dropdown entry.
30/9/2011	Clients	Rectified an issue whereby the first letter of the suburb for contacts 1 and 2 (Cons. Info. Tab) was not being capitalised.
30/9/2011	Clients	Version 8.2 upgrade - Increased the number of issues that display on the print preview and printed Customer Care Plan SCTT form from 4 to 8.
30/9/2011	All	Version 8.2 upgrade - HACCPAC options, e.g. screen resolution, are now stored in the user's Application Data folder instead of the registry. This enables users to change their own settings without having to be logged on with an Administrator account.
30/9/2011	DBSelect	Version 8.2 upgrade - Added the option in DBSelect to select the Data Source from a dropdown. This enables you to switch between different HACCPAC environments, e.g. Test and Production.
30/9/2011	DBSelect	Version 8.2 upgrade - Up to 5 separate instances of HACCPAC can now be installed on the one server. This is useful for clients using Terminal Services or Citrix who have multiple HACCPAC databases covering different areas of their business.
30/6/2011	Reports	Rectified Meals Summary Report error

HACCPAC and MEALPAC Release Notes

17/6/2011	Rosters	Rectified issue whereby selected jobs change colour
17/6/2011	Utilities	Updated to allow different state's (i.e. non-Victorian) suburbs and postcodes to be selected
