

Create ODBC Data Source for Haccpac Customised Reports Viewer (MS Access Users Only)

Note: This procedure only needs to be run once on each workstation that requires access to the Haccpac Customised Reports Viewer.

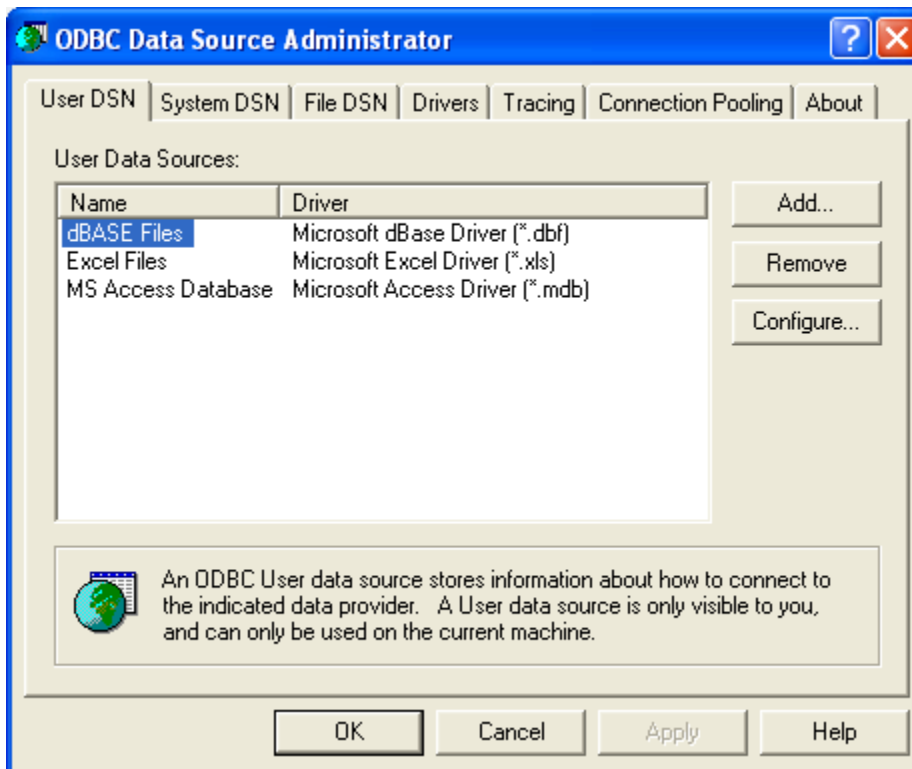

1. Select the **Control Panel** from the Start menu, and the select **Administrative Tools**.

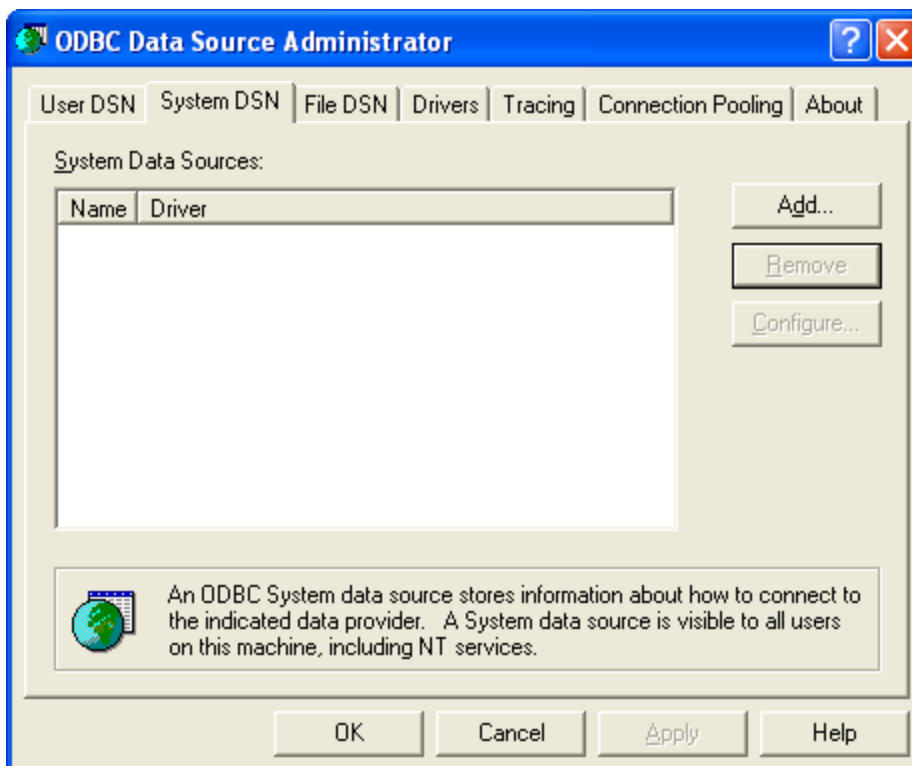

2. Select Data Sources (ODBC).

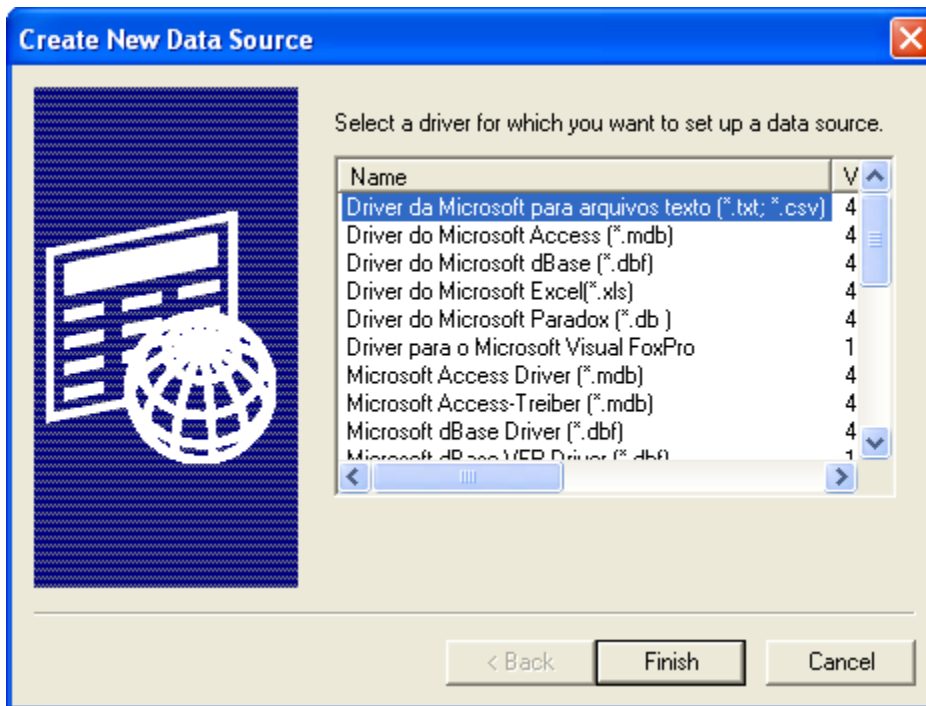

3. Select the **System DSN** tab.

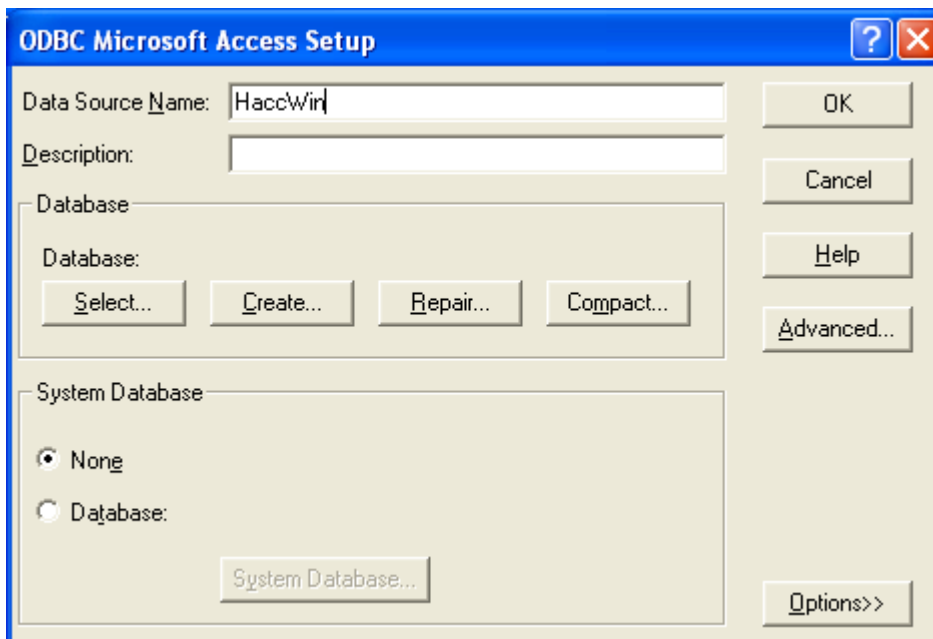

4. Click the **Add** button.

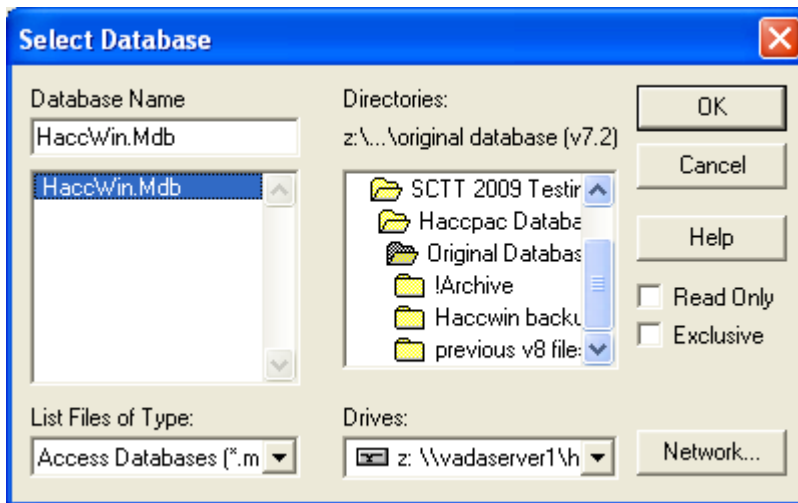

5. Select the **Microsoft Access Driver**.

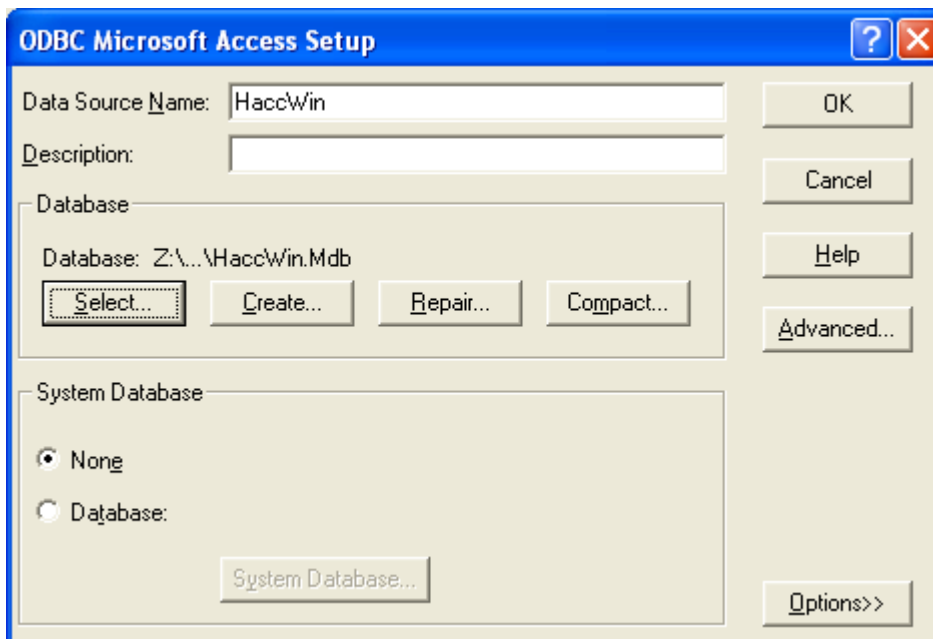

6. Enter **HaccWin** in the Data Source Name field.

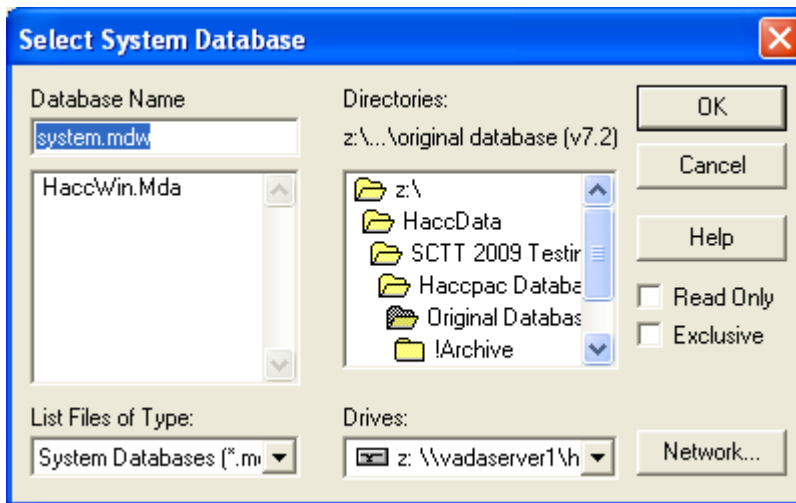

7. Click the **Select** button and browse to your MS Access database file (HaccWin.mdb).

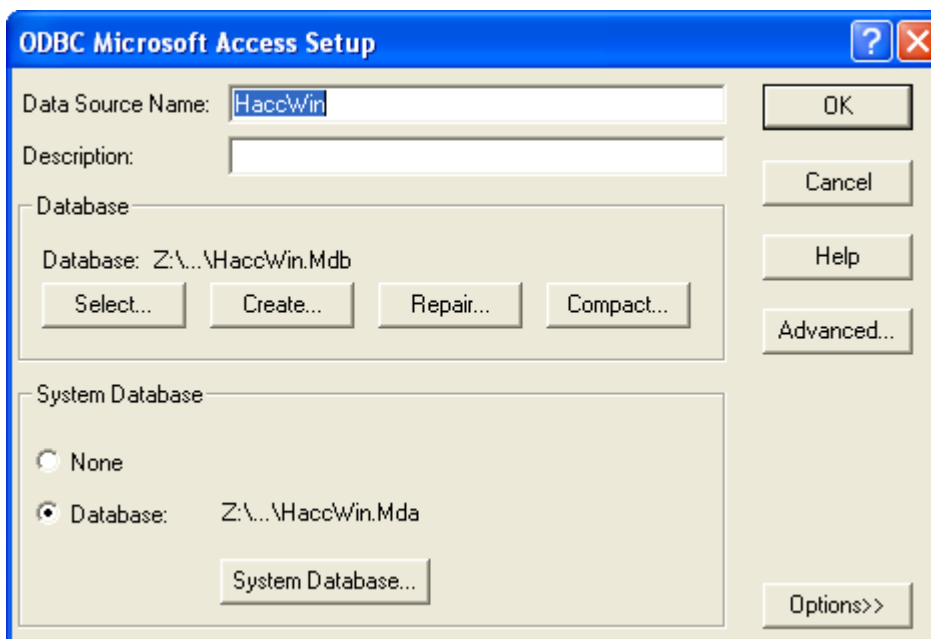

8. Select the **Database** radio button and then click the **System Database** button.

9. Select your **HaccWin.mda** file.

10. Click the **Advanced** button.

11. Enter the **Login name** and **Password**, as follows:

- Login name: Development
- Password: SupaPhill
